

## Application No. 486: Dog treat pouch

Author: Stephanie Michel, Röthenbach bei Herzogenbuchsee, Switzerland

### A practical outdoor pouch with magnetic closure

I designed a functional dog treat pouch with your magnetic bag closures CLA-14 ([www.supermagnete.fr/eng/CLA-14](http://www.supermagnete.fr/eng/CLA-14)). It has a convenient magnetic closure and can be opened quietly and quickly so that the dog can be promptly rewarded.

I chose a lightweight material for this pouch.

It offers a wide variety of mounting options and does NOT need a strap!

The pouch can be attached to a bicycle or pram.

The fabric is water-resistant, the seams are completely sealed, making this pouch also suitable as a portable drinking container for the dog.

This functional pouch is also great for other outdoor enthusiasts. They could use it, for example, to keep necessities within reach during a bicycle ride, be it a mobile phone, tissues or a wallet.

*Note from the supermagnete team:* Technically, our bag closures are meant for dry indoor use – prolonged use outdoors could cause them to rust. As an alternative, we offer sew-in magnets ([www.supermagnete.fr/eng/group/sew-in](http://www.supermagnete.fr/eng/group/sew-in)) which are shrink-wrapped inside a plastic cover.
