

Application No. 54: Magnetic Cows

Author: VanLuc, Arromanches, France

Nice and friendly cow sculptures with a magnetic touch

VanLuc was born in 1959 and now works and lives in Arromanches (Normandy).

He uses the cow motif as a continuously renewable symbol, a kind of graphical guiding theme to his work. The cow - a likeable and well-known animal - features in hundreds of his pieces: pictures, sculptures and graphics...

Depicted in various colours and shapes, the « Vache de... » open a dialogue with the observer and demand attention through their playful and pleasing charisma as well as their obvious or perhaps not-so-obvious message. A touch of humour always plays a part in the work.

This extraordinary artist has also used some of our super magnets to create particularly beautiful sculptures.

This cow sculpture is held to the cover of the rusting steel box by magnets. The box is both the packaging as well as the pedestal for the sculpture.

Cow Box

Also this cow 'La vache de VanLuc' with loosely arranged magnets is an original creation. Further pictures can be found on the artist's website VanLuc (vanluc.fr/)

Magnet Cow

Exhibition of a cow sculpture by VanLuc during the Cannes Shopping Festival in January 2008. The contours of the sculpture are fit with magnets.
