

Application No. 620: Floating clay sculptures

Author: Marta Revuelta, Cantabria, Spain

Playful clay sculptures with a surprise effect

These sculptures that I designed can be a nice decoration or ring holder. I like to surprise my clients with them: They select the sculpture that they like best - the bird, the dancer or the flying insect. The magnets are so small and hard to see, so it takes them by surprise when I show them that you can take the sculpture off.

As a potter, I use glazed clay for these sculptures. To make them "float", I use a magnet to attach them to a stiff wire that I embedded in a stone, which I have found near my house or at the beach.

I used the following products: A W-05-N (www.supermagnete.fr/eng/W-05-N) for the wire, a S-05-02-N52N (www.supermagnete.fr/eng/S-05-02-N52N) for the sculpture and UHU MAX REPAIR (www.supermagnete.fr/eng/WS-ADH-01) to glue the magnets on.

Articles used

1 x W-05-N: Cube magnet 5 mm (www.supermagnete.fr/eng/W-05-N)

1 x S-05-02-N52N: Disc magnet Ø 5 mm, height 2 mm (www.supermagnete.fr/eng/S-05-02-N52N)

WS-ADH-01: UHU MAX REPAIR (www.supermagnete.fr/eng/WS-ADH-01)
