

## Application No. 757: Presentation at the "Suitcase Market"

Author: Katharina Knöpfel, Freienstein, Switzerland

### Present arts and crafts at the Suitcase Market

#### Visiting the Suitcase Market

I stuffed my suitcase with these hanging and standing figurines and went to the Suitcase Market. Visitors enjoyed my art pieces. In order to make them stand out, I used your super magnets.

#### 1. Hanging up a box

I wanted to hang up small wooden boxes like these (8 x 8 x 7 cm) on the sheet metal behind.

For that purpose, I glued a small iron plate to the backside of the box and placed 2 flat block magnets ([www.supermagnete.fr/eng/Q-10-10-01-N](http://www.supermagnete.fr/eng/Q-10-10-01-N)) on it. Later I was able to move the magnets around or exchange them for other magnets. Thanks to the magnets the boxes also adhere to iron nails in walls or wooden planks.

#### 2. Hanging up figurines

I attached floating figurines to a steel panel with small hook magnets ([www.supermagnete.fr/eng/FTN-10](http://www.supermagnete.fr/eng/FTN-10)).

That turned out to be a great solution as well. I can move the figurines around whenever I need to without drilling or gluing.

### 3. Setting up figurines

I used countersunk pot magnets ([www.supermagnete.fr/eng/CSN-10](http://www.supermagnete.fr/eng/CSN-10)) to set up figurines by gluing a thin wire on them with UHU MAX REPAIR ([www.supermagnete.fr/eng/WS-ADH-01](http://www.supermagnete.fr/eng/WS-ADH-01)). Thanks to the magnets the figurines also adhere well to fridges.

#### Articles used

Q-10-10-01-N: Block magnet 10 x 10 x 1 mm ([www.supermagnete.fr/eng/Q-10-10-01-N](http://www.supermagnete.fr/eng/Q-10-10-01-N))

FTN-10: Hook magnet Ø 10 mm ([www.supermagnete.fr/eng/FTN-10](http://www.supermagnete.fr/eng/FTN-10))

CSN-10: Countersunk pot magnet Ø 10 mm ([www.supermagnete.fr/eng/CSN-10](http://www.supermagnete.fr/eng/CSN-10))

ZTN-16: Pot magnet with cylindrical borehole ([www.supermagnete.fr/eng/ZTN-16](http://www.supermagnete.fr/eng/ZTN-16))
